

Takeoffs & Landings: Preventing an Accident AND Investigation and Analysis of Three GA Accidents

DPE, Master CFI, FAASafetyTeam Lead Rep, and CFI of the Year Woody Minar will give two presentations - Takeoffs & Landings: Preventing an Accident (very popular seminar given at Oshkosh) AND a presentation on the events and causal factors leading up to the crashes of three aircraft (two land and one seaplane) by three of his friends. The latter presentation will include graphics and photos of the crash sites along with the retrievals. You will no doubt be impacted by the causal factors and it will leave you wondering how all the occupants survived.

Directions: Fly or drive to Cumberland Airport (KUBE)

A message from the National FAASafetyTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
